PROFESSIONAL SUMMARY

Full-stack developer with 7+ years of experience delivering scalable, SEO-optimised web applications. Led the migration of a production PHP platform to Next.js and TypeScript, and built full-stack MERN applications covering REST APIs, dynamic listings, filtering and booking flows. Skilled at turning business requirements into fast, maintainable products, with hands-on API integration experience and an AI-assisted workflow that speeds up delivery.

CORE SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Tailwind CSS, HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, REST API design and integration, PHP, MongoDB

Engineering Practices: Git and GitHub, responsive design, SEO, performance optimisation, AI-assisted development (Claude, GitHub Copilot, ChatGPT)

Integrations: HubSpot, Mailchimp, Zapier, Google Ads, Snapchat Ads

CMS: WordPress, Shopify

PROFESSIONAL EXPERIENCE

Web Developer | Property Shop Investments, Abu Dhabi, UAE

06/2022 – Present

- Led the migration of a legacy PHP platform to Next.js and TypeScript, improving performance, SEO, maintainability and scalability.
- Built real estate web platforms end to end, including dynamic property listings, advanced search filters and lead forms.
- Developed and maintained REST API integrations between the web platform and CRM, marketing and analytics services.
- Built a Next.js walk-in registration app that routes lead submissions to branch-specific CRM endpoints.
- Delivered high-converting landing pages with optimised forms, improving lead capture and conversion.
- Automated repetitive lead handling with Zapier, freeing the sales team from manual data entry.

Front End Developer & Team Leader | UP2 Digital, Thrissur, India

10/2017 – 12/2021

- Led and mentored a team of developers across the full website lifecycle, from requirements and build to launch and maintenance.
- Built responsive WordPress and Shopify websites and customised themes to match client brand identity across all devices.
- Optimised sites for SEO and speed, improving organic search rankings and web traffic.

SELECTED PROJECTS

- Real Estate Web App (MERN)** – Full-stack platform with admin listing management (create, edit, delete) and user property browsing with viewing-slot scheduling.
- Finance Management App (MERN)** – Personal finance tracker with transaction CRUD, filtering and spending insights.
- Real Estate Landing Page (Next.js)** – Property landing page with lead collecting form.
